# flexmobil<sup>classic</sup> Compact and easy to drive

Flexmobil Classic is an indoor power wheelchair that is very easy to manoeuvre and steady in any situation. The turning radius will be minimal since the driving wheel is centrally located below the seat. The seat unit is the same reliable seat you can find on our work chair 200 Classic and is fitted with Trevira cloth for highest comfort and correct seating. Flexmobil can easily be adjusted to different users' needs through a wide variety of options and accessories.

## Footrests

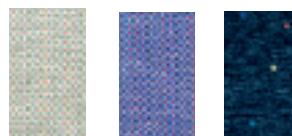

Add leg support to complete your Flexmobil Classic. A full size foot plate, divided leg support or perhaps an amputation support. There are many options available for making it easy to adjust Flexmobil Classic to fit each user

## Controls

Flexmobil Classic uses the latest programmable controls

## Colours

Flexmobil Classic is available in grey Video, blue Video or black Dot colours

## Backrest Sizes

Choose between low or high back. 35x30 or 35x44cm
